# FUNDING OPTIONS

## PAYMENT PLANS TO SUIT YOUR PROJECT!

Established in 1971, EYG is one of the UK's leading home improvement and double glazing specialists. When you're about to make a sizeable investment, we understand the need to budget.

Thanks to our flexible payment plans, you can now improve your home immediately - without worrying how to pay for it!

Invest £1,000 to £50,000 on any products in our portfolio and there are three flexible ways to fund your dream project.

## EXCELLENCE WE GUARANTEE

Our composite door range is backed by our comprehensive 10-year 'repair or replace' warranty. If you suffer an issue because of a manufacturing fault or general everyday use, we will resolve it promptly.

### SIT BACK, RELAX & ENJOY YOUR INVESTMENT

- 10-year warranty applies from initial date of installation.
- 5-year warranty for all gold or chrome hardware.
- Complete cover for both the product and any parts used.
- Mechanics of all multi-point security systems included.
- Transferrable - warranty is against EYG products, not the purchaser (Good selling point if you ever decide to move home).

# OUR COMPOSITE DOORS

## **Superb Sound Insulation**

Weighted noise reduction of 31 decibels. Installing a composite entrance door in your home will ensure it's easier to keep out unwanted noises and make it much more cosy.

## **Exceptional Durability**

Tested to withstand 200,000 days of regular constant use, the quality and durability of our doors is exceptional. To give great definition and long life performance, all EYG composite doors use glass reinforced plastic skins. That's the same material used to make the hulls of boats!

## **All-Weather Proof**

We use the latest glass reinforced plastic (GRP) technology to encase the door's inner high density CFC-free polyurethane foam core, protecting against the elements. In fact, our GRP composite doors have been tested in all weathers - including winds of up to 80 miles per hour and in simulated rain tests. Not a drop penetrated through, so we can guarantee you'll be warm and dry for many years.

## **PAS23 & PAS24**

Our PAS23 & PAS24 composite doors have passed the independent PAS23 British Standard for weather resistance and the independent PAS24 British Standard for security, as one component of a complete door set.

\*Berwick handle only

Secured by Design

Official Police Security Initiative

## Secured By Design

All composite external doors can be supplied with the police preferred specification Secured By Design, meaning they boast security features that would help reduce the risk of burglary.

### Unparalleled Security

2 hooks, latch and deadbolt combination provide enhanced security. High security investment cast steel hooks prevent attack by hammer. Tested to BS6375-2 in excess of 50,000 cycles for operational reliability.

### Maintenance free

When you buy composite entrance doors from EYG, you buy complete peace of mind because they will never warp, rot, rust or need to be repainted.

### Save you money

Composite external doors help reduce the amount you spend on heating bills and could also lower your home insurance bills because of their security qualities.

### Beautifully hand-finished

Available in a variety of RAL colour finishes, you can choose the style and colour which is best suited to your home.

# EYG Daily News

## EYG COMPOSITE DOOR PREVENTS BREAK-IN ATTEMPT ON LEEDS HOME

Happy EYG customer Phil Silkstone can vouch for the high-security standards of our range of composite doors, as his withstood an attempted break-in and ensured those attacking his home left empty handed. Mr Silkstone, of Halton, a district of Leeds, had recently upgraded to a new composite door from EYG as he was keen to ensure his home was as secure as possible.

It was a decision which proved worthwhile just seven days later when he returned home at night to discover the door had been attacked around the lock area, but had stood strong despite those trying to break in obviously coming equipped.

"It looked like they'd had a good old go at the door around the lock with something like a hammer as there were plenty of marks and damage around the lock, but the door had stood firm," said Mr Silkstone.

"I'd chosen the composite door from EYG as I wanted the most secure and strong door for the front of my house, and it has certainly lived up to its promise." At 44mm thick, EYG's timber core composite doors are solid and one of the strongest on the UK market.

The door was Secured By Design accredited, a Home Office initiative to stamp out crime through accredited high-spec, high security windows and doors. The aim is to 'design out crime' through heightened security measures.

John Waugh, Sales & Marketing Director at EYG, said: "We always say that we are selling peace of mind when we sell our composite doors, because they are so strong and secure, they last for years and are virtually maintenance free. "Security is the biggest thing for almost every customer we see, and although it is of course sad to hear that Mr Silkstone's home has been targeted and that his new door has been damaged, it is great to know that it has done its job and kept people out.

"It is clear from the pictures our customer sent to us that the people looking to break in came armed with equipment to force the door open, as it had been badly damaged around the lock and there was also damage to the hinges. To withstand this sort of attack just emphasises how secure these doors are. EYG is now arranging to replace the door for Mr Silkstone as part of his insurance claim following the damaged caused."
